

ADELAIDE SPACES GUIDE

Our spaces balance industrial qualities with the contemporary, provide an inviting contrast between work and play and are architecturally-designed to promote connection and collaboration between teams, clients and customers. Experience an electric innovation culture that functions at all levels to foster collaboration, learning and community. Whether you need a meeting room for two or mojitos for 250 – we make it happen.

Providing end-to-end support, our team is invested in the success of every event that we host. Prior to your event we offer a site visit to discuss your requirements and to forward plan the setup; leaving no detail to the last minute. All events have a dedicated team member onsite to welcome your guests, run the AV system and to ensure the overall smooth running of your event.

Host your event at Stone & Chalk and take the opportunity to find out what's new across the entire Lot Fourteen community. This is Adelaide's centre of gravity for entrepreneurship and a great place to connect with future leaders.
